

How to access the “From/To PC” folder from a MacOS X 10.7 (Lion) computer.

1. Tap on the connection status icon () in the task bar on the Pocket Controller.
The following popup appears.

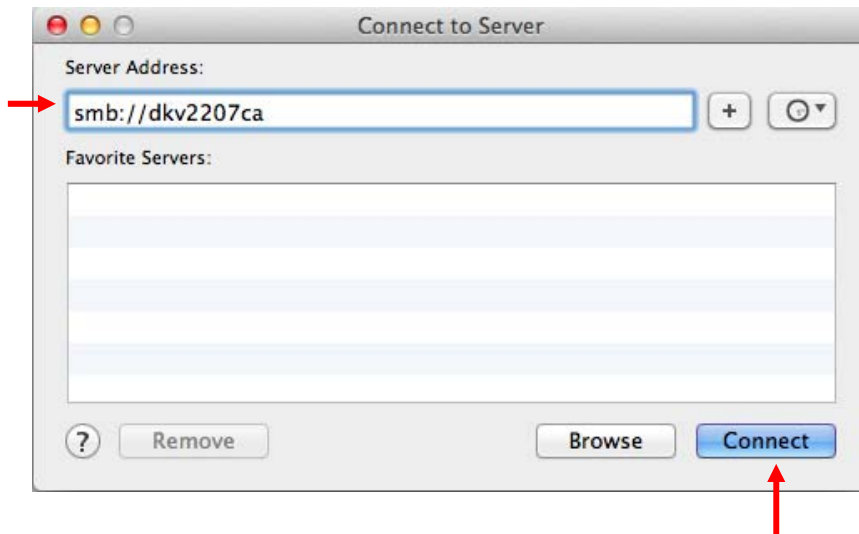

2. Look for [DKVxxxxxx] and memorize it.
* “DKV2207CA” is one example.
3. Tap on [Go] and then tap on [Connect to Server...] on the Macintosh computer.

The “Connect to Server” window appears.

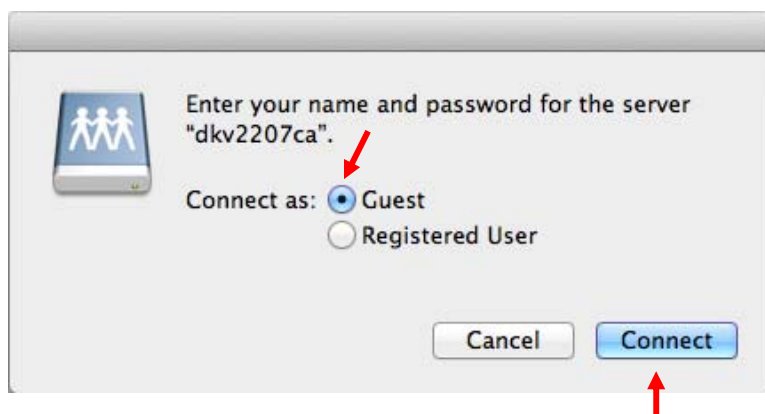

4. Input “smb://DKVxxxxxx” in the Server Address text box and then tap on [Connect] button.

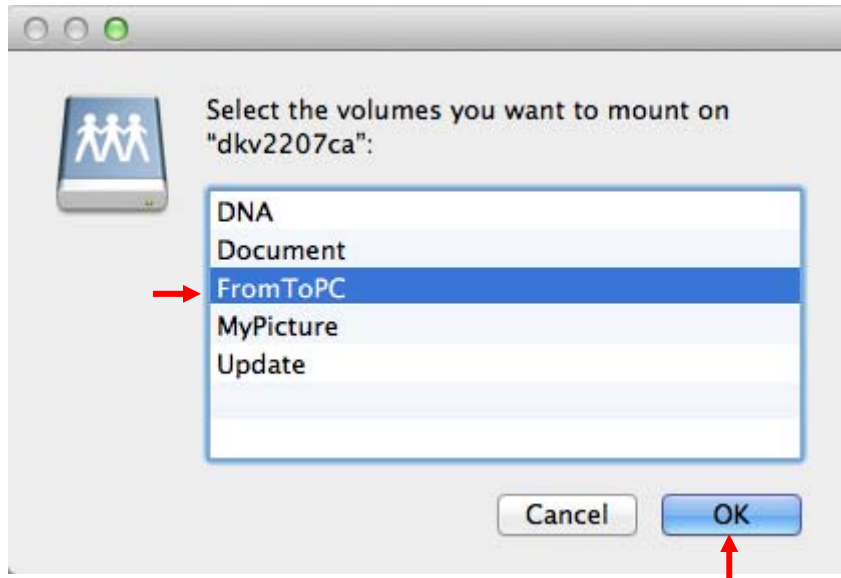

The following window appears.

5. Tap on [Guest] radio button and then tap on [Connect] button.

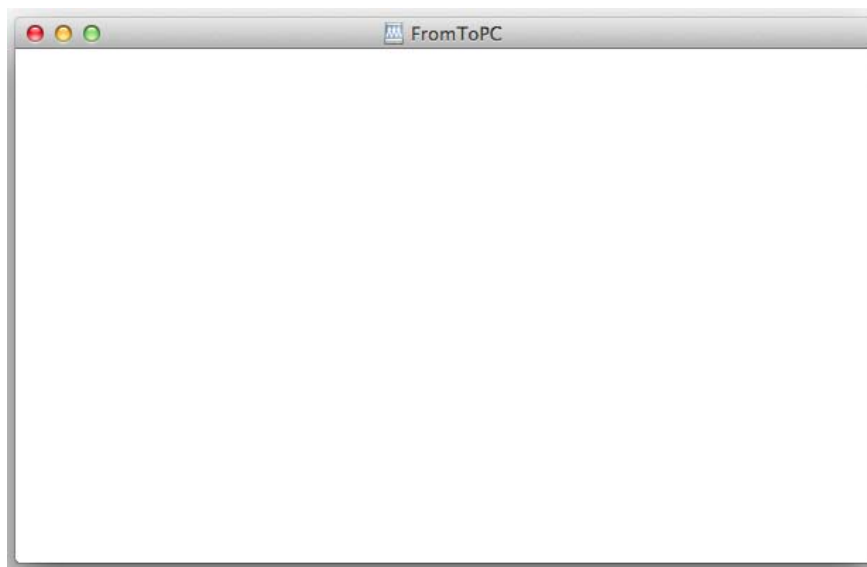

6. Select [FromToPC] volume and then tap on [OK] button.

* If you want to use the “Virtual PRC” application, Select [DNA] volume.

The From/To PC folder appears.
